PREFACE.

The completion of the preparation of *The Origin and Development of Babylonian Writing* and the fulfilment of an obligation to prepare a *Commentary on Job* made it impossible until now to make the copies of the remainder of the Haverford Library Collection. Thus the appearance of this concluding portion of the work has been unavoidably delayed.

As the forms of the signs in these tablets have been included in Part I of the work on *Babylonian Writing*, it has seemed unnecessary to include a sign-list in the present volume, as originally planned.[1] It has also seemed best to refrain from issuing a vocabulary until the numerous business documents from the dynasty of Ur and earlier periods, which are now known and are in process of publication, can be studied, and a general vocabulary of Sumerian business documents can be prepared. Instead of these, a list of the personal names and the names of places, which occur in the three parts of this work, is included in the present volume.

In preparing this list the Semitic arrangement of the alphabet has been followed. This has been done because we know the Sumerian only through the explanations of the Semitic Babylonian syllabary, and it seems more consistent to follow the Semitic order of the letters than to form a hybrid order, partly Semitic and partly Roman, as is generally done, and call it Sumerian.

In the references to texts in the list of proper names *i* and *ii* have been substituted for the ordinary *obv.* and *rev.* This was done partly for brevity, and partly to make the references to large and small tablets harmonious.

A number of corrections to the text of Parts I and II are included in the present volume. Such has been the progress of science since those volumes were issued that a number of corrections to the translations there given might have been published also. This has not been done, however, because our knowledge of such texts is increasing so rapidly that such corrections might be out of date in a few years, and Assyriologists know them already.[2]

February, 1914.

GEORGE A. BARTON.

[1] See Preface to Part I.

[2] One point should, however, be corrected. In Part II, p. 12, it was conjectured that ṬU-UŠ-GAL was a tax-collector. This is probably incorrect, for the Code of Hammurapi (xii, 6, 7), distinguishes the ṬU-UŠ-GAL from the tax-collector (*na-ši bi-il-tim*). The Code shows the ṬU-UŠ-GAL to have been an officer of authority and importance, such that certain perquisites pertained to his office; he might be sent on distant and dangerous missions, where he was liable to capture by enemies (Code, §§ 26–32).

Corrections to Parts I and II	Pl. 155

INTRODUCTION.

The one hundred and eighty-four texts here published complete the publication of the Haverford Library Collection. Of these texts two, No. 24 and No. 152, are, for different reasons, repeated from Part I. Two texts are also included in the volume which belong to Mr. John F. Lewis of Philadelphia. They are designated *x* and *y* and are on pl. 101.

The character of the tablets is the same as that of those included in Parts I and II. Those which are dated are all from the reign of the dynasty of Ur. Three are, probably, from the reign of Ur-Engur,[1] the founder of the dynasty, while one, No. 224, is from the reign of Ibi-Sin, the last king of the dynasty. The other three monarchs of the dynasty are represented by more numerous examples, the largest number of which are naturally from the reign of Dungi.

These texts furnish a number of interesting forms of the characters of the script of the Ur period. All but one of these have been noted in the "Additions and Corrections" to *The Origin and Development of Babylonian Writing*. The one not included there is the following:  which occurs on pl. 125, No. 267, ii, 11 and 12.

The sign has long been known, but its values have not been determined. It occurs in the texts here published in a proper name, which is spelled in a sufficient variety of ways, to give us one value for the sign. This name is *Enguš*, which is spelled usually En-gu– (see references in the index of proper names), but is once (II, 71, 51, i, 21) *En-guš* () and once (II, 59, 19, i, 21) as *En-guš-uš*, where *uš* is a phonetic complement to show that is to be read *guš* and not *šur*. The sign occurs also in a new month name in tablet *y*, pl. 101. This tablet belongs to Mr. Lewis, and probably came from Drehem. It is certainly not from Telloh. It is dated ITU . When reading the proofs of *The Origin of Babylonian Writing*, Part II, it seemed probable that the month here intended was *Ezen-^{d}Ne-gun*, here spelled *Ezen-Ne-gu*, the value EZEN was accordingly tentatively assigned to , though, through a typographical error, the interrogation (?), was omitted in printing it. If the text comes from Drehem, it is more probable that it is a spelling of the secondary Nippurian form of the name of this month, which was *Ū-ne-kur* (cf. Langdon, *Tablets from the Archives of Drehem*, p. 15). In that case the value of would be ū. Thus we have two values UŠ and Ū (?) for .

Some of the dates present interesting variants to the usual formulæ. Thus the date of No. 251, pl. 126, is MU EN-TE-UNUG AN-NA, which is, probably, a variant of MU EN-MAḪ-GAL AN-NA ^{d}NANNAR BA-ŠU, the fifth year of Bur-Sin. Another date, which is

[1] This dating is based on the supposition that MU EN ^{d}ININNI UNUG^{ki} MAŠ-E NI-PAD (below, No. 169, 226 and 293) is a variant of MU EN ^{d}ININNI UNUG^{ki} DUMU UR-^{d}ENGUR MAŠ-E NI-PAD-DA (RTC 264), though this is doubted by Thureau-Dangin (cf. SAK 228 b and 235 1), and Myhrmann (BE III, 33 and 44).

possibly another variant of this is found in No. 330, pl. 132. It reads: MU EN-TE-AB-MÊ ^{d}NANNAR AB-.... At least, if this is not a variant of the same, it is a new date. Still another variant of the formula of the fifth year of Bur-Sin is found in No. 331, pl. 132. It is: MU EN-TE-AB-GAL AN-NA ^{d}ININNI BA-ŠU, which is almost identical with the formula which occurs in CT, VII, 18370, MU EN-TE-GAL AN-NA EN ^{d}ININNI BA-ŠU. This last form of it probably stood in No. 362 (below, pl. 137) before that tablet was broken. The date formula on No. 381 (pl. 143) is: MU ^{d}DUN-GI LUGAL[ŠIS-UNUG^{ki} SI]-MU-RU-UM^{ki} B[A-ḪUL]. This is a longer form of the usual date formula MU SI-MU-RU-UM^{ki}, a well-known date in the reign of Dungi; cf. OBI, 125, rev. 4.

One tablet, No. 358, presents a date formula which is, so far as I know, quite new. It reads: MU-UŠ TEMEN-MAḪ BA-KIM, "Year the great temple platform was built."

PERSONAL NAMES.

NOTE.—In the following list b = brother; d = daughter; gf = grandfather; gs = grandson; f = father; h = husband; m = mother; ow = owner; s = son; sl = slave; w = wife. In tablets not divided into columns i = obverse and ii = reverse.
